AUTHORIZATION FOR CARE OF A MINOR

It is understood and agreed that the payments to the doctor for x-rays is for examination of x-rays only. The x-ray films will remain the property of this office. They are kept on file where they may be seen at any time while I am a patient in this office. I understand that all services are to be paid in full at the time of service, unless other arrangements have been made and agreed in writing.

I hereby authorize the doctors in this chiropractic office and whomever they may designate as their assistant to administer chiropractic care, to work with my condition through the use of adjustments and procedures the doctor deems appropriate. I clearly understand and agree that all services rendered me are charged directly to me and that I am personally responsible for payment. I agree that I am responsible for all bills incurred at this office. The Dr. will not be held responsible for any pre-existing medically diagnosed conditions nor for any medical diagnosis. I also understand if I suspend or terminate my care for any reason, any fees for professional services rendered me will become immediately due and payable. I hereby authorize assignment of my insurance rights and benefits (if applicable) directly to the provider for services rendered.

I authorize the use of this signature to allow the insurance companies to pay House Family Chiropractic, P.C. directly any amounts payable as my assignment of benefits. I authorize the use of this signature on any insurance submissions.

TERMS OF ACCEPTANCE

When a patient seeks chiropractic care and we accept such a patient for care, it is essential for both to be working towards the same objective. Chiropractic has only one goal. It is only when the patient understands both the objective and the method that they will be able to attain it. This will prevent any confusion or disappointment.

An adjustment is the specific application of forces to facilitate the body's correction of vertebral subluxation. Our chiropractic method of correction is by specific adjustments to the spine.

Health is a state of optimal physical, mental and social well being, not merely the absence of disease.

Vertebral Subluxation is a misalignment of one or more of the joints of the body. This can cause pain or alteration of nerve function and interference of the transmission of nerve impulses, lessening the body's innate ability to maintain maximum health.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxation. However, if during the course of a chiropractic spinal evaluation, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of a health care provider who specializes in that area. Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. **OUR ONLY PRACTICE OBJECTIVE** is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjusting to correct vertebral subluxation.

I have read and fully understand the above statement. Any questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept chiropractic care on this basis.

YOUR THOUGHTS ARE CRITICAL TO OUR SUCCESS IN HELPING YOU

Your nervous system is the master system and controller of your body. Health and wellness are therefore mediated through your nervous system. What makes our office different, is that we have a unique and modern approach to supporting and expanding your health by improving how your nervous system performs. The Neurospinal Function Index (NSFi), which is the rating of results of the series of tests with the Insight technology that your doctor had ordered on you, scales from 0-100. The higher the score, the better your NSFi. A graph representing this is below.

Lifestyle stress adversely effects your nervous system and general health. Many times, when people think they have a 'back problem', what they really have is a 'health problem' that is a result of the way they are living.

Please answer the following questions so we may better understand how to health you:

1. On a scale of 1 to 10 (10 being the most important) how important is your health to you?

On the graph to the right:

2. Please put an 'X' to score where you think you are today.

3. Please circle where you would like to be (your goal).

4. How long do you think it might take to get to where you circled? _____

5. What things might you need to change to help you reach your goal?

a: _____

b: _____

c: _____

d: _____

6. If we could make recommendations that would not only address your main concerns, but could also help you with improving your overall health, would you like to hear them? _____ yes _____ no
